## Hubei Yihang New Material Technology Co., Ltd.

20 years ago in Beijing, at the busiest electronics market, our business map unfolded. As a real manufacturer we always believe that in-house R&D and processing are the most critical factors which enable us continuously, successfully help our partners with what they need, concern and focus over the past decades. Relied on our talented team and sophisticated products, we've gained excellent reputation among our global customers from government, bank, university, hospital, listed company etc.

We advocate environmental protection concepts, and focus on customer experience and market demand, carefully polishing product quality and striving for perfection, ensure product accuracy and quality, place a sense of responsibility and leadership at the core of the group's mindset, it is the central that determines all decisions and relationships with our team, clients, and partners. We putting customers at the center, providing effective solutions and services, constantly creating, and bringing maximum value to customers.
